

# Bachelor of Science in Strategic Studies and Defense Analysis

Chair, Department of Continuing Studies: Mark L. Parker  
Program Manager: James Dalton

The Bachelor of Science in Strategic Studies and Defense Analysis (BSSSDA) is a degree-completion program designed to build upon the military education and experience of Special Operations Forces (SOF) in the U.S. Army, Navy, Air Force, and Marine Corps. The BSSSDA program of study fulfills general education competencies needed to complete the bachelor's degree while developing a soldier's knowledge in vital areas such as sociology-anthropology, geography, cultural awareness, regional politics, and international conflict. The program is open to those who are active duty or retired from the U.S. Army Special Operations Forces, including reserve and National Guard components, as well as to other service members who are assigned to Special Operations Units.

Instruction in Strategic Studies and Defense Analysis at Norwich University is designed to be highly experiential through an integration of the operational and international experiences of SOF soldiers into the curriculum. A soldier will apply course work and study to initiatives and field exercises related to his or her deployment area. Students will conduct research concerning a region's conflicts and opportunities and will incorporate both their research and field experiences into their program of study, thus potentially enhancing the U.S. Army's body of knowledge of that region. Principles of critical thinking, ethical decision making, and leadership interweave throughout the curriculum.

Students entering the Strategic Studies and Defense Analysis degree program may receive the equivalent of up to 60 semester hours for courses in military training, leadership preparation, and/or language study upon credit review by the American Council of Education or a similarly recognized organization. Students may also transfer up to an additional 24 semester-credit hour equivalents from other accredited institutions of higher education. Transfer courses must meet specific course requirements in the SSSDA program. Students complete the remaining credits through Norwich University in a structured program that will typically require two to four years to complete, depending upon a student's full-time or part-time enrollment status and military deployment schedule.

Students in the Strategic Studies and Defense Analysis degree program will graduate with the major competencies needed to implement the U.S. Army's Special Operations Forces agenda in a specific region of the globe. These competencies include the ability to:

- Identify, describe, and explain the geographic features of the region.
- Demonstrate understanding of the history of the region and its impact on current events.
- Identify various cultures of the region, explain similarities and differences among them, and apply this knowledge to develop problem solving strategies within a range of contexts.
- Identify political figures in the region, analyze their positions on various issues, and apply this knowledge to develop effective collaborative relationships and/or intervention strategies.
- Understand the economics of the region, analyze a range of economic factors, and formulate recommendations for economic activities.
- Appraise and articulate the role of the United States within the region.
- Appraise and articulate the role of the US Army within the region.
- Demonstrate knowledge and skills related to cross cultural competence.

The Strategic Studies and Defense Analysis degree curriculum is divided into four areas of instruction. The first area, core knowledge, ensures that students complete general education courses required for a bachelor's degree at Norwich University. The second area, program courses, addresses specific learning needs of the SOF and related communities. The third area, field studies, allows students to put their knowledge into practice by exploring a specific region's economic, geographic, and cultural systems and making recommendations to help effect change within a region. The program culminates with a Capstone Project that is supervised by a faculty member. The Capstone Project is intended to contribute to the U.S. Army's body of knowledge of regions around the globe including Asia, Africa, the Middle East, Europe and Latin America.

## Curriculum Requirements

### Pre-Program Education and Training

Students accepted into the Strategic Studies and Defense Analysis degree program must have earned a minimum of 60 semester credits from college courses, military training, or other educational experiences such as CLEP tests. A maximum of 84 semester credits may be transferred into the program. General education courses listed below are required unless applicants transfer in approved coursework or training from other institutions.

### Number of Semester Credits

#### General Education Courses

ENGL 270	Military Literature	3
HIST 310	Historical Studies	3
MATH 232	Elementary Statistics	3
RELG 300	Comparative Religion	3
SCIE 301	Environmental Science	3
SSDA 306	Science and Technology Visual Augmentation Defense Systems	3

#### Program Courses

Students complete 18 credits of the following:		18
COMM 205	Tech-Mediated Communication	3
COMM 305	Strategic Communications	3
ECON 310	Socio-Economic Studies	3
HIST 210	History of US Constitution	3
INSC 311	Intro Homeland Security Intell	3
INSC 313	Global Security & Intelligence	3
INSC 315	Security Coordin&Collaboration	3
MNGT 311	Operations & Project Mngt	3
MNGT 315	Leadership	3
MNGT 320	Strategic Planning	3
PHLS 205	Critical Thinking	3
PHLS 324	Criminal Justice Ethics	3

POLS 302	National Security Policy	3
POLS 306	Comparative Politics	3
POLS 318	International Terrorism	3
SOCI 330	Military Sociology	3
SOCI 335	Intro to Cultural Competence	3
SSDA 310	Emergency and Disaster Relief Operations	6
SSDA 315	Insurgency and Conflict	6
SSDA 320	Information Operations	6
<b>Field Studies</b>		
Students complete 18 credits of the following:		18
ECON 401	Economic Studies	6
SOCI 401	Culture and Anthropology	6
SOCI 406	Area Studies	6
<b>Capstone</b>		
SSDA 400	The Capstone Project	6
INDE 490	Selected Topics	6
Total Cr.		60

<b>Faculty Member</b>	<b>Institution at which highest degree was earned</b>
Edwin (Leigh) Armistead, PhD	Edith Cowan University, Perth, Australia
Laurette Brady, MBA	St. Joseph's University
Jack Covarrubias, MA	University of Southern Mississippi
John Covell, MS	Troy State University
