

Graduate Certificate in Rural Municipal Governance

The first course in this certificate introduces students to the work of local government managers in the United States. The core of the course is the study of best practices for municipal leadership, including the challenges of providing direction to a wide scope of departments and agencies necessary to serve the needs of communities. Students will also study how to create and maintain intergovernmental relationships and form partnerships with elected officials, staff employees such as directors, managers, and department heads, private sector businesses, bargaining units, citizens and representatives of the media.

The second course in this certificate explores the role of the public service leader, divisions and sectors within the rural municipality, organizing stakeholder collaborations and developing an action plan in support of accountability, good governance, and improvement of quality of life. Specifically, discussions will examine interdisciplinary and multidisciplinary cultural competence and effective leadership skills uniquely identified in rural communities as well as exploration of key issues affecting education, economic development, water supply, sewer systems, internet and broadband access, housing, health care access, and mental health status of those living in rural counties and towns.
