

## Management Curriculum Overview

Charles A. Dana Professor Michael Puddicombe; Professor D. William Jolley; Associate Professors David Blythe and Thomas Yandow; Assistant Professor Kahwa Douoguih; Lecturers James Rogler and Kris Rowley. Adjunct Instructors Daniel Alcorn, Duncan Currier, Bruce Faulkner, Renato (Ron) Merolli and Stephen Smith.

The Management program focuses on the management functions: planning, organization, leadership and control. Our students integrate knowledge from other disciplines within the school (accounting, economics and computer information systems), to enter into organizations with both a functional and an enterprise perspective. The program provides a breadth of required courses and the opportunity to pursue elective courses in such fields as organizational behavior, information systems, marketing, economics, human resources, and finance, thus enabling each student to align his or her interests with degree requirements. Management students benefit from a unique leadership laboratory and are offered the opportunity for summer and academic year internships in a wide variety of organizations.

At the conclusion of the spring semester of the sophomore year, Management majors must select a concentration.
