

Bachelor of Science in Management Studies

Program Overview

Associate Dean of Continuing Studies: Mark L. Parker
Program Manager: Daniel Alcorn

The Bachelor of Science in Management Studies (BSMS) is an upper-division bachelor's degree completion program. Intended for students with prior professional experience in the public, private, or military sectors, the BSMS provides students with a solid academic foundation in general management principles and practices while emphasizing core competencies in such areas as leadership, communication, and technology. By also completing a required concentration in a specialized area of management studies, graduates of the program will have demonstrated the ability to apply knowledge and proficiency in general management to specific management environments, contexts, and challenges.

Requirements

Curriculum Requirements

The Bachelor of Science in Management Studies (BSMS) is designed for students with at least 30 credit hours of prior college coursework or its equivalent in eligible military or professional training. The program consists of three curriculum areas:

- Core Courses
- Concentration
- Capstone

The core courses are degree requirements to be taken by all students. All BSMS students must complete an 18-credit concentration in a specialized management area or discipline. The capstone is the culminating activity for the program and is required for completion of the degree. Free electives are taken by students who enter the program with fewer than 60 credits.

General Education

Students are required to meet general education competencies (<http://catalog.norwich.edu/archives/2020-2021/onlineprogramscatalog/generaleducation/>) in writing, literature, history, arts and humanities, science, social science, and math and may do so by transfer credit or enrollment in courses offered through the College of Graduate and Continuing Studies.

Transfer Credit and Student Progress in the Program

CLEP and DSST exams may be accepted for transfer credit by the program manager, depending on the requirements of the Norwich course for which credit is sought. CLEP and DSST transcripts must be applied to a student's record by the time they have earned 100 credits in their program. No credit derived from CLEP or DSST exams will be applied to the student's record after this point.

Students must complete all core and elective coursework, including any courses necessary to fulfill the general education competencies, before being enrolled in a field study course unless given prior written approval by the program manager.

Students must complete all required coursework including any required field study courses before being enrolled in a capstone course, unless given prior written approval by the program manager.

All transfer credit must be applied to the student's record before the student can be enrolled in a capstone course.
