

# Bachelor of Science in Strategic Studies and Defense Analysis

## Program Overview

Associate Dean of Continuing Studies: Mark L. Parker  
Program Manager: James Dalton

The Bachelor of Science in Strategic Studies and Defense Analysis (BSSSDA) is a degree-completion program designed to build upon the military education and experience of Special Operations Forces (SOF) in the U.S. Army, Navy, Air Force, and Marine Corps. The BSSSDA program of study fulfills general education competencies needed to complete the bachelor's degree while developing a soldier's knowledge in vital areas such as sociology-anthropology, geography, cultural awareness, regional politics, and international conflict. The program is open to those who are active duty or retired from the U.S. Army Special Operations Forces, including reserve and National Guard components, as well as to other service members who are assigned to Special Operations Units.

Instruction in Strategic Studies and Defense Analysis at Norwich University is designed to be highly experiential through an integration of the operational and international experiences of SOF soldiers into the curriculum. A soldier will apply course work and study to initiatives and field exercises related to his or her deployment area. Students will conduct research concerning a region's conflicts and opportunities and will incorporate both their research and field experiences into their program of study, thus potentially enhancing the U.S. Army's body of knowledge of that region. Principles of critical thinking, ethical decision making, and leadership interweave throughout the curriculum.

Students entering the Strategic Studies and Defense Analysis degree program may receive the equivalent of up to 60 credit hours for courses in military training, leadership preparation, and/or language study upon credit review by the American Council of Education or a similarly recognized organization. Students may also transfer up to an additional 30 semester credit-hour equivalents from other accredited institutions of higher education. Transfer courses must meet specific course requirements in the SSSDA program. Students complete the remaining credits through Norwich University in a structured program that will typically require two to four years to complete, depending upon a student's full-time or part-time enrollment status and military deployment schedule.

Students in the Strategic Studies and Defense Analysis degree program will graduate with the major competencies needed to implement the U.S. Army's Special Operations Forces agenda in a specific region of the globe. These competencies include the ability to:

- Identify, describe, and explain the geographic features of the region.
- Demonstrate understanding of the history of the region and its impact on current events.
- Identify various cultures of the region, explain similarities and differences among them, and apply this knowledge to develop problem solving strategies within a range of contexts.
- Identify political figures in the region, analyze their positions on various issues, and apply this knowledge to develop effective collaborative relationships and/or intervention strategies.
- Understand the economics of the region, analyze a range of economic factors, and formulate recommendations for economic activities.
- Appraise and articulate the role of the United States within the region.
- Appraise and articulate the role of the US Army within the region.

- Demonstrate knowledge and skills related to cross cultural competence.

The Strategic Studies and Defense Analysis degree curriculum is divided into four areas of instruction. The first area, core knowledge, ensures that students complete general education courses required for a bachelor's degree at Norwich University. The second area, program courses, addresses specific learning needs of the SOF and related communities. The third area, field studies, allows students to put their knowledge into practice by exploring a specific region's economic, geographic, and cultural systems and making recommendations to help effect change within a region. The program culminates with a Capstone Project that is supervised by a faculty member. The Capstone Project is intended to contribute to the U.S. Army's body of knowledge of regions around the globe including Asia, Africa, the Middle East, Europe and Latin America.

## Faculty

Faculty Member	Institution at which highest degree was earned
Edwin (Leigh) Armistead, PhD	Edith Cowan University, Perth, Australia
Jack Covarrubias, MA	University of Southern Mississippi
John Covell, MS	Troy State University
Allison Greene, PhD	Old Dominion University
Victoria Greene, MS	University of Vermont
John Jennings, PhD	University of Hawaii
R. Alan King, MA	Webster University
Cynthia Levy, PhD	Zriayi Miklos National Defense University (Hungary)
Charles Lynch, MS	Naval Post Graduate School
Martin McMahon, MLitt	Middlebury College
Greg Makuch, MS	Troy University
Randall H. Miller, MA	Norwich University
Brett Morash, MA	US Naval War College
Darlene Olsen, PhD	State University of New York, Albany
Robert Pauly, PhD	Old Dominion University
Russell Ramsey, PhD	University of Florida
Robert Greene Sands, PhD	University of Illinois
Shawn White, PhD	University of Georgia
Lea Williams, PhD	University of Oregon
